[Welding Duplex Stainless Steel](#)

A Full Service Fabricator and Installer

Precision Welding and Fabrication is a full service fabricator and installer of process piping and structural steel for the petrochemical, industrial, commercial, and other industries. [Find out more](#)

Please take a moment to review our capabilities. We are here to serve all your fabrication needs. Quality control and on-time service places Precision Welding and Fabrication at the forefront of customer service. Send us your project today. We are available at sales@weweld.com or by phone at 281-252-0151.

Sincerely,
Precision Welding and Fabrication

Duplex Stainless Steel

Quality is a significant issue for the welding and fabrication of 2205 (UNS532205) Duplex Stainless Steel. Fabricated correctly, Duplex Stainless Steel has significant advantages in terms of economy, erosion resistance, and stress and corrosion cracking resistance compared to some other grades of stainless steel.

Precision Welding and Fabrication was awarded the shop fabrication and field installation of approximately 3000 vertical feet of 16' duplex stainless steel pipe to be installed in Marco Island Florida. The project was critical to the island's water supply under an intense critical time line of 14 days. Our welders were under-the-gun, worked 24/7, and completed the project 4 days ahead of schedule.

Here is what our client had to say:

"We offered to ask our customer for additional time due to extremely tight schedule for the shop fabrication of the pipe and the field installation. Precision told us they would not need the extra time and they were ready to move forward with the project. This was the first project with them so we were quite taken back. We asked again if they understood the difficulty of this project and we received the same response"

"Precision Welding exceeded our expectations not only of doing an excellent job but also a pleasure to work with. Even with project related delays caused by us, they still beat the deadline."

Testimonials

Here is what some of our Clients have to say about Precision Welding and Fabrication:

"Overall good, honest people"

"Thank you...It has been a pleasure working with you and I hope we get to work together on another project"

"I very much appreciate your thoughtfulness and the attention you have given this small project. It has been and continues to be a pleasure to deal with you. I look forward to working with you in the future on even larger projects"

"This letter is to thank you for your help in getting our hastalloy plate rolled for an emergency repair to one of our vessels. The failure happened on January 5th. With your help we had the

material on January 6th. We appreciate your help in getting this done. Your contribution greatly expedited our completion"

"The welding of the pressure containing piping for this project was completed with a repair percentage ratio of 0.8% (8/10ths of 1%) out of 270 welds. Total weld Length = 2246 inches."
